HAYWOOD TRIAL HAS BEGUN IN EARNEST

Most Important Case Ever Tried In This Country.

CASE OF THE STATE OUTLINED

As the Trial Proceeds It Is Expected that Some Very Startling Developments Will Be Made—Union Labor Figures Prominently.

Boise, Idaho, June 5.—The trial of William D. Haywood, secretary and treasurer of the Western Federation of Miners, charged with the murder of Frank Steunenberg, former governor of the state of Idaho, commenced in earnest Tuesday morning when, at 9:30 o'clock James H. Hawley, the leading counsel for the prosecution, made his opening address to the jury on Monday to try what is probably the most important case brought into a court in this country.

Up to the present the charge against Haywood has been one of murder, in that he conspired with the man Orchard, who, by his own confession, it is alleged, committed the crime. But, with this first address to the jury the scope of the case was revealed, at least in part. The charge is that Haywood as one of the high officers of a powerful labor organization, having been given authority by members to use his office and the funds of the Western Federation of Miners to promote its interests purely as a labor organization, so used his office as to become one of the secret leaders in the gigantic plot to revolutionize society and by murder and terrorizement, bring about conditions in this country that threatened the upheaval of all existing forms of government. Haywood will be tried for the murder of Steunenberg.

The state of Idaho has yet to reckon with the actual murderer—he who laid the bomb at the gate of the residence of the governor, who had retired from politics and was pursuing his way as a sheep farmer, but who, when the chief executive of his state in spite of his allegiance to union labor, throughout a hard working life, had by word and deed shown that he stood first and last for the law and its observance within the borders of Idaho.

It was the murder of Steunenberg and the assassin, Orchard, that laid bare the plots and counter-plots that led to the arrest of W. D. Haywood, together with Moyer, president of the Western Federation, and Pettibone, one of the 1,500 members.

The case has been discussed everywhere in this country for more than a year. But the side of the prosecution has never been revealed, and even now it is said that much will be left to the evidence, and that from its commencement the case will be full of surprises. Counsel for the defense claim that the development of the case will show plots of much larger dimensions than those hinted at by the prosecution. They assert in behalf of their clients that the "capitalistic class" hopes by the arrest of these heads of a powerful labor union to arouse sentiment against labor unions and by the conviction of Haywood crush out the cause of union labor. They charge at the outset and without revealing their defense, that the whole confession of Orchard who they admit is the murderer and the case outlined by the state is a fabrication, built up by the aid of the detectives; that their clients are innocent of wrong-doing or any complicity in the murder or series of murders charged against Haywood, Moyer and Pettibone.

The case of the state, it is charged, will show that no less than 26 murders, each one of them as dastardly as that of Governor Steunenberg, were conceived by what is known as the "Inner Circle," of the Western Federation of Miners. This "inner circle," it will be claimed, acted independently and without knowledge of the members. At no stage of the proceedings will an effort be made to show that more than a score of men had any knowledge of what was going on. The case of the state, it is believed, will show that the president of the Western Federation and his secretary-terasurer were ambitious in their plans and that it was hoped to amalgamate this powerful labor organization with others throughout the country so that it might become a powerful factor and dominating influence through the numerical strength and financial contributions of the hundreds of thousands of workingmen who contributed support to union labor.

PRINCE EBERWEIN BANKRUPT,

But Takes Life Merrily with Actress Wife, Ignoring Bailiffs.

The Hague, June 5.—Prince Eberwein, of Bentheim-Streinfuert, who some time ago forfeited his rights of inheritance and his positon in the German army by marryng the daughter of a burgomaster, is now bankrupt. After the wedding he hired a castle at Oudwassenaar, near the Hague, perhaps hoping for recognition by his aunt, the queen dowager of the Netherland, but neither she nor Queen Wilhelmina nor the aristocracy received him. His failure to pay rent for the castle has led to its seizure by bailiffs, whose presence, however, did not disconcert the prince and princess. They merrily played tennis, ignoring the officers who watched the game.

The pair have now gone to Germany, leaving the bailiff in possession.

Great Banking Merger.

New York, June 5.—Former Secretary of the Treasury Leslie M. Shaw, may head a $50,000,000 banking merger. Reports are current, says the Times, that the newly organized Carnegie Trust company, of which Mr. Shaw is the head, will be the nucleus of a combination of three trust companies whose total resources aggregate the figures given. Officers of the company declined to discuss the proposition at present, but it is stated that tentative negotiations have progressed to a point where the question is receiving serious consideration from the three concerns involved.

Man Shoots Two Others and Then Commits Suicide.

Pittsburg, Pa., June 5.—Two men are lying in the hospital in a critical condition from bullet wounds, and a third, who fired the shots, is dead, having committed suicide after doing the shooting. The dead:

Patrick Reardon, 28 years old, shot himself in the head.

The injured:

Thomas Morton, shot through the right eye.

M. M. Moorehead, shot in the back of the head.

The attempted double murder and suicide occurred Monday afternoon at a boarding house on Larimer avenue, East End district.

Reardon called on the two injured men for the purpose of inquiring about a woman, Mrs. Anna Vortish. Reardon had been drinking. Both Morton and Moorehead denied knowing the whereabouts of the woman, and Moorehead left Morton and Reardon in the former's room.

While alone with Morton, Reardon suddenly drew a revolver, and alleging Morton knew where the woman was, fired at him, the bullet entering Morton's eye. Leaving the room, Reardon met Moorehead, who was coming back to investigate the shooting. Reardon shot him three times and then, with the last shot in his pistol, Reardon killed himself.

BOAT CAPSIZED AND FOUR MEN DROWN

A Fifth Has an Unexceptional Experience.

LASHED TO OVERTURNED SLOOP

Edward Auth Sees His Companions, With Farewell Gesture, Sink Beneath the Waves—Disaster Off the Connecticut Coast.

New York, June 5.—Four men lost their lives and the fifth suffered an experience such as few men have lived through in the wreck of the sloop Belle of Brooklyn, off Norwalk, Conn., in the gale of Sunday.

Edward Auth, of Saratoga avenue, Brooklyn, joint owner of the vessel, with his brother Jacob, saw his companions, including his brother and his brother-in-law, slip, one by one from the bottom of the overturned sloop, and with a word of farewell, sink below the turbulent waves never to appear again.

After Edward Auth had lashed himself to the stern of the wrecked craft with a short rope, he became unconscious from exposure and sank back to meet the fate of the others. The rope held him floating on the surface with his face just out of the water, and hours later, almost as a corpse, he was picked up by the tug Wyoming and taken to New Haven.

It was not until Auth gave a slight sign that a flickering spark of life remained in his body that he was taken into the warmth of the tug's engine room, and then, through vigorous treatment and the administration of powerful stimulants, he was kept alive until the boat had won its race with death to the harbor and he was sent to a hospital.

In barely audible gasps Auth told of the wreck of the Belle and of the fate of his companions, and then once more lapsed into unconsciousness.

The babe landed in soft mud and will recover.

MELONS AND CUKES ARE MOVING LIVELY

Tampa and Jacksonville Will Enjoy a Splendid Season.

CUCUMBER CROP IS LARGE

An Average of Six Carloads a Day is Moving from Tampa and Jacksonville Territory Alone—Fine Prospects for Cantaloupe Yield.

The Tampa and Jacksonville railroad, more familiarly known as the Gainesville and Gulf, which traverses one of the most fertile sections of the State, will as usual this season transport a large quantity of produce, principally truck and melons, and already the movement over this road is heavy. This is especially true of cucumbers, the movement at present of cucumbers alone being on an average of six cars per day.

In speaking of the melon prospects along this line, one of the officials of the railroad a day or two ago stated that the prospects were never better, notwithstanding the fact that the long and continued drought had threatened to cut the yield considerably short. The rains came at the proper time, however, when the vines took on new life.

It is estimated that the cantaloupe crop south of Gainesville tributary to the Tampa and Jacksonville will amount to one hundred and fifty cars. The fruit as a rule is in fine condition, and the growers expect to realize handsomely.

THE FISHERMEN RETURN.

Jolly Quintette of Anglers Had Big Time at Cedar Key.

A jolly quintette of anglers, comprising W. R. McKinstry, Lee Graham, K. H. Graham, E. B. Brown and Captain J. W. Blanding, have returned from a most delightful fishing trip at Horse Key, opposite Cedar Key.

The party secured a boat at Cedar Key and "went where the fish was at," as one of them expressed it. There are all kinds of reports about the success of the trip, but the more conservative of the party give the catch as thirteen sharks, a boat-load of mullet and bottom fish which almost swamped the craft, and a numerous assortment of members of the finny tribe.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root,** the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

To Our Friends and Patrons.

The closing of our banking department is now fixed for the 5th of July. This will be immediately succeeded by The Dutton Bank, a State institution organized by and to be conducted and managed by some of the most reliable and conservative men of the city and vicinity.

They ask for your patronage, and will return in favors as liberal as a conservative method of doing business will permit. If our old depositors, who have been with us so many years, will extend to them the same confidence, favors and patronage that they have so liberally given us, they will add to the many obligations under which they have already placed us.

H. F. Dutton & Co. will handle cotton (bales of cotton) as usual at the old stand. Very sincerely,

ON SERIOUS CHARGE AGENT IS ARRESTED

John W. Jolly, Agent Atlantic Coast Line, Is In Trouble.

HIS ARREST CAUSED SURPRISE

Arrest Was Made on Two Warrants Sworn Out by Representative of the American Surety Company, Charging Embezzlement and Forgery.

Information comes from Leesburg to the effect that John W. Jolly, agent for the Atlantic Coast Line at that point, was arrested Wednesday on two warrants sworn out by a representative of the American Surety Company of New York, one of which is the alleged embezzlement of $2,148, while the other warrant charges Jolly with having forged the names of certain messages of the Southern Express Company to eight express receipts, said to have represented that many "remittances," aggregating $1,317, to the East Florida Savings and Trust Company in Palatka for deposit, which money was not received by the bank.

The alleged shortage was discovered by G. W. Watson, a traveling auditor, who says that the accused made a full confession to him after being confronted with the express receipts alleged to have been forged for the purpose of deceiving the auditor, and thereby obtained credit for $1,317 supposed to have been in transit.

The defendant will have a preliminary hearing tomorrow before Judge J. B. Milan in Tavares, the county seat of Lake county.

Mr. Jolly has hitherto borne an excellent reputation, and his arrest was a great shock to his friends here and elsewhere.

THE NEWS FROM MELROSE.

Important Meeting of the Town Council—Telephone Franchise Granted.

The town council met in regular session on Monday night and accomplished a lot of good work by reducing the debt on the town hall, granting a telephone franchise, amending an important ordinance, etc.

A very useful piece of work is being undertaken by some of our liberal-spirited citizens in the shape of a public well to be located in the center of Bellamy avenue, just about where the three counties meet. The work is well underway.

Mrs. M. E. Mullin left yesterday for a visit to her daughter at Tampa.

There will be services at the Lutheran church on Sunday, June 9, at 11 a. m.

Mrs. W. H. Corpew and son are the guests of Mrs. A. H. Craig.

The town hall flag was flying on Monday in honor of Jeff Davis' birthday.

The Steamer Albert made a trip to Waldo on Monday, but did not get through on account of the low water in the canal.

W. H. Lee has gone to Lake Butler to finish the erection of a large storehouse.

Mrs. Alma Saunderson, a trained nurse from Gainesville, has arrived to take charge of Mrs. Rose, who shows very little improvement.

LITTLE POCKET PHYSICIAN.

Hyomei is Guaranteed by J. W. McCollum to Cure Catarrh.

Thousands who have been cured by Hy-o-mei call the inhaler that comes with every outfit the "Little Pocket Physician," as it is so small that it can be carried in the pocket or purse.

There is really no excuse whatever for anyone having catarrh now that Hy-o-mei is so readily obtainable. If you have any doubt about its value, J. W. McCollum will let you have a complete outfit, with the understanding that unless it cures catarrh, it will not cost you a cent.

Do not delay longer the use of Hy-o-mei if you suffer with catarrh. This is a purely local disease, and Hy-o-mei goes right to the spot where the catarrh germs are present, destroys them, soothes and heals all inflammation and makes a permanent and lasting cure.

The complete Hy-o-mei outfit consists of the "Little Pocket Physician" and a bottle of Hy-o-mei and costs only $1, making it the most economical as well as only guaranteed treatment for the cure of catarrh. Remember that Hy-o-mei cures catarrh without stomach dosing, applying the medication and healing where the disease germs are present.

In Mayor's Court.

Douglass Jackson, colored, was arraigned in the mayor's court Tuesday upon a charge of fighting, the complaint having been entered by A. Chresostomidhes, who testified that without provocation Jackson entered his store and struck him.

Jackson found this a rather expensive manner of getting satisfaction, if he had a grievance, as the mayor fined him $10 and cost.

A Thorough Optimist.

"Father," said the small boy, "what is an optimist?"

"An optimist, my son, is a man who believes the weather bureau when its predictions are favorable and who congratulates himself on its unreliability when they are not."—Washington Star.

S.S.S. HEALS OLD SORES

An old sore or ulcer is only a symptom, an outlet for the impurities and poisons which are in the blood, and as long as this vital fluid remains in this impure, contaminated state the place will never heal. The application of salves, washes, powders, etc., may cause the spot to scab over, but a fresh outpouring of diseased matter from the blood starts it again, and thus it goes on, gradually growing worse and slowly affecting the entire health of the sufferer. There are many ways in which the blood becomes contaminated and poisoned. A long spell of sickness breeds disease germs in the system, the failure of the eliminative members to remove the refuse and waste matter of the body, the excessive use of mineral medicines in certain diseases, all infect the blood with morbid matter and germs which sooner or later is manifested by a sore that refuses to heal. Persons with inherited blood taint are very apt to be afflicted with sores and ulcers. The taint may lie dormant during young, vigorous life, but when middle age is reached or passed and the natural energies begin to grow weaker, the tissues in some weak point break down and a chronic sore is formed and kept open by the constant drainage of impure matter from the blood. If the cause is not removed the sore will continue to grow worse by eating deeper into the flesh, festering, discharging, and slowly undermining the constitution. S. S. S. heals old sores by going down to the very bottom of the trouble, driving out the impurities and building up the entire circulation. When S. S. S. has removed the cause the blood becomes rich and healthy, the sore begins to heal, new flesh is formed, and soon the place is cured. Do not depend on external applications, which do not reach the blood, but begin the use of S. S. S. and remove of the cause, and then the sore must heal. FORMER FLORIDIAN HAS A THIRD WIFE

Former Gainesville Man Pays One Wife a Million Alimony

HE TRIES MARRIAGE AGAIN

Elliott Formerly Resided in Gainesville Where He Was Well Known Several Years Ago—Moved to Jacksonville, Later Going to New York.

Following closely upon a decree of the Westchester (N. Y.) County Court, which gave his second wife a divorce and $1,000,000 alimony, John Love Elliott, a mining promoter, has again wed, and is now on his way to Europe with his third bride.

The bride is said to have been a Miss Moore of West Sixty-fifth street, New York, daughter of Mrs. G. F. Moore. The ceremony by which she was united to the mining man was so quickly and secretly held that it amounted practically to an elopement.

The former Mrs. Elliott, now traveling with her daughter, evidently was unaware that her ex-husband had planned another marriage even while his lawyers were paying over the enormous penalty she won in her suit. But the marriage was no more secret than her own divorce.

Mr. Elliott is president of the Consolidated Arizona Smelting Company and a member of the Metropolitan, the New York Athletic, the Ardsley, Lawyers', City and the City Midday Clubs.—New York Mail.

Former Gainesville Man.

John Love Elliott was for several years a resident of Gainesville, and is well known by many of the older element here. Leaving this city he went to Jacksonville, later proceeding to New York, where he has enjoyed fine success in mining ventures. His first wife, now deceased, was a daughter of the late David Wilson of Jacksonville. She died leaving two daughters, who are now with their father. Their grandmother still resides in Jacksonville.

Mr. Elliott now has his third wife.

JEFF DAVIS MEMORIAL.

Ladies of J. J. Finley Chapter, U. D. C., Observed This Occasion.

Mr. and Mrs. G. K. Broome generously tendered their home to the ladies of the J. J. Finley Chapter, U. D. C., to hold their annual Jefferson Davis Memorial exercises.

This year the exercises took the form of an historical reading, interspersed with a very much appreciated musical program. The exercises were as follows:

Music—Variations of Dixie, Miss Clara Pound.

Reading—Description of the Davis monument, Mrs. J. L. Medlin.

Song—"Sunny South," Solo by Miss Rosabel Pedrick with chorus of young ladies.

Reading (by request)—From Memoirs of Mrs. Jefferson Davis, Mr. W. W. Hampton.

Musical Selection—Miss Leonora Vidal.

Reading—Mrs. J. W. Tench.

Duet—Misses Lena Hunter and Bessie Kelley.

The chapter febls especially pleased that it was represented at the unveiling ceremonies of the Jefferson Davis monument, on June 3rd, at Richmond, by their president, Mrs. J. M. Taylor.

The ladies of the chapter wish to thank all their friends who contributed by their assistance in making the evening's entertainment a success. The exercises closed by a chorus of a dozen voices of young ladies and gentlemen, singing the old war song, which it is useless to say elicited a generous applause and brought tears to the eyes of many of the older ones present.

The house was beautifully decorated with the Confederate colors and flags, also pot plants and cut flowers, all of which was very much admired by the large and appreciative audience.

At the close of the program the ladies of the chapter served refreshments.

RHEUMATISM CAN BE CURED.

That rheumatism is one of the most obstinate of diseases most physicians will declare, and that once it takes firm hold upon the human system its victim is in for a period of great suffering is equally true. Modern methods in medicine are, however, doing much to rob rheumatism of its terrors, and doctors of wide experience say that in the treatment of the disease great success follows the faithful use of these prescriptions: Have a good druggist prepare anti-rheumatic tablets composed of 2½ grains Sodium Bicarbonate, 3 grains Salicylic Acid and 1 minim Wine of Colchium. Take one of these tablets before each meal, following it immediately with a glass of water. After each meal take one tablespoonful of a preparation of ¼ oz. Fluid Extract of Buchu, 1 dram Fluid Extract of Horse Nettle, 1 oz. Amet Cordial, ¾ oz. Fluid Extract of Liverwort and 14 ozs. of water. Any first-class pharmacy can compound these prescriptions. The treatment, which should be continued for a month, is reported to work wonders, even in cases that have resisted other medicines.

Report Absolutely Denied.

Paris, June 5.—A report has been in circulation on the continent that negotiations were in progress between France and Great Britain for the exchange of the New Hebrides, in the Pacific ocean, having New Caledonia on the south and the Fiji islands on the east, for Sierra Leone, the British colony on the west coast of Africa. Inquiries on the subject at the foreign office elicited an absolute denial of the report.

HON. J. M. BARCO.

For some months past it has been rumored that Hon. J. M. Barco of Marion county was a probable candidate for State comptroller. He has been prominently mentioned by the State press as a good man for the position, and The Democrat today learns from a good and reliable source that he has decided to make the race, and that his announcement will be made at the proper time. It goes without saying that he will make an active and aggressive campaign.

Mr. Barco is a native Floridian, and one of the best known men in the State, and his many friends are numbered by the thousands who will be only too glad to give him their support. He has been prominent in business and political circles for a number of years, and is regarded by all as a true, honest Christian gentleman, who would do honor to any office within the gift of the democracy of this State.

If nominated and elected to the office of State comptroller, the affairs of that office will be properly and honestly conducted without fear or favor. Mr. Barco is well qualified to fill the position and would make a model official, and we predict for him the largest vote ever cast for a candidate for any office who had an apponent.—Live Oak Democrat.

Mr. Barco was for several years a resident of Gainesville, being register of the United States land office, and should he become a candidate for comptroller his old friends would lineup for him in solid phalanx.

The St. Lucie County Tribune says the pineapple season is on in earnest and the daily shipments have now exceeded twenty cars. Some foreign shipments have been made, and the indications are that exports will increase over last year, although a good price is offered for all the fruit in the home markets. The fruit is of a much superior quality than was anticipated during the long drought, and while the percentage of small sizes will be larger than last year, the crop as a whole will be an average one.

Ere another year has elapsed the University of Florida will be "a thing of beauty and a joy forever." The funds are now available for the erection of the necessary additional buildings and beautifying of the grounds and the Board of Control will push the work to completion as rapidly as the securing of labor and material will permit.

A new census of Gainesville should be taken at once. A correct enumeration of the inhabitants within the present boundary lines would show it to be probably first, in point of population, of the inland cities of the State, and we should lose no time in demonstrating such to the outside world.

The editor of The Sun can sit at his desk and count the names of over two hundred persons in Alachua county who are entitled to draw pensions under the new law.

Our Lake City friends can no longer claim that the University of Florida is not located in the city of Gainesville.

THE NEW DRAINAGE LAW.

The Fort Myers Press, referring to the new drainage law, says it means that the work of draining the Everglades under the present plans of Governor Broward will be continued, although the revenue to be derived from the new drainage district will not be near so large as under the act passed two years ago, and which the United States Court at Jacksonville ruled out.

Many of the objectionable features of the old law have been left out, the maximum tax to be levied is five cents per acre, instead of ten, as under the former law, and the boundaries of the new drainage district are considerably contracted.

Under the old law, more than one-half the territory of Lee county was included in the drainage district, the west boundary of the district being the range line between Ranges 27 and 28, coming close to Alva, and embracing all the lands on the river east of Alva. The new district cuts off four tiers of townships in this, DeSoto and Monroe counties, placing the western boundary of the district on the range line between Ranges 31 and 32, which puts the west line just about where the Hicpochee lock and dyke is to be located, and striking Cape Sable on the south. All of the Everglades are embraced in the new district, the north line taking in a little more than one township north of Lake Okeechobee, taking in a large part of the new Saint Lucie county, and all of Dade county with the exception of a strip a few miles in width, down to Miami, where the line strikes the coast and follows the coast line around to Cape Sable.

Only 33 townships in Lee county are included in the new drainage district, whereas under the old law, 77 townships in this county were embraced in the district.

The report of the committee appointed by the Legislature to investigate the drainage work of the Commissioners was so favorable that it no doubt had much influence in securing votes for the present bill.

Under the new drainage law nearly all of the small tax-payers are left out of the district, there being only those on Fish Eating Creek, and some along the East Coast. The bulk of the lands in the district are owned by the Southern States Land and Timber Company.

The past year has been by far the most profitable in the history of the Hastings potato section, ninety thousand barrels having been harvested and disposed of at the best prices in many years. The land upon which many small fortunes have been made during the past few years in that section was formerly considered worthless, and is another evidence of the fact that no living being knows what is yet in store for the people of Florida. The geological survey provided for by the last Legislature may yet be the means of the people forgiving the sins of omission and commission of that body, for there is no telling what such a survey will show to be lying in the bowels of the earth of this State.

The people of St. Petersburg, as well as those of the entire peninsular of West Hillsboro county, are very sore over the failure of the Legislature to create a new county of that section. The bill creating the new county, to be known as Pinellas, passed the House by a good majority, but was never reached on the Senate calendar, and Senator Crane never endeavored to take the bill up out of its order. The Pinellas people will make a strong effort to have this new county created two years hence.

A HEAVY MIDDAY MEAL.

The Business Man, It Is Claimed, Should Avoid It.

The Americans and English begin the day with breakfast, which is generally a substantial meal. This the people of the continent of Europe consider barbaric and disgusting. The Frenchman and the German breakfast on a scanty roll. They are consequently unable to go till the afternoon without absorbing something massive. The Frenchman toward noon takes a substantial lunch, and at midday the German takes a heavy meal, which absorbs his digestive energies during the remainder of the day. The German dinner makes a big break in the working day, and the eater, according to Dr. Martinet of Paris, suffers by a loss of energy during the afternoon. The heavy midday meal Dr. Martinet considers a mistake. One should not have dinner at noon, in the middle of one's workday, he says, but instead should take a light lunch. The lightest meal of the day, he thinks, should be during the period of exertion, and the heavy meal should be reserved for a later hour, when there is a chance for digestive repose. The proper series for the modern man, according to this authority, is a substantial breakfast, a light lunch about noon and a square meal at 6 o'clock or later.—Baltimore Sun.

A SLAB OF BLACK STONE.

Key to All the Ancient Writings of the Egyptians.

There is a slab of black stone in the British museum which if you could walk away with it and establish your claim as the owner you could sell any day for a quarter of a million and find half a dozen money kings in England and America ready to buy it.

There is nothing very striking about this stone. It might be a piece of black marble with some peculiar hieroglyphics upon it. But it is just these hieroglyphics which make it so valuable, because they are the key to all the ancient writings of the Egyptians, and without this stone, called the Rosetta stone, we should be unable to read the Egyptian writings which have been discovered from time to time.

Some French tourists found the Rosetta stone in Egypt and transported it to Paris, where an Englishman took a fancy to it for a garden ornament. He paid £5 for it—5 sovereigns—and got a treasure which you could cover with gold and yet not represent its value, but till the day of his death he did not know what that bit of stone was worth.—London World.

Comet Panics.

Joseph Jerome Lafrancais de Lalande, the popular French astronomer of a century ago, differed from Newton's view that Providence had so arranged matters as to make collision of the earth with a comet impossible and wrote a paper to prove that it was only very improbable. This paper, which was to have been read with others before the French academy on a certain day in 1773, got crowded out, but the Parisian public, hearing of it, made up its mind that Lalande had predicted the impending destruction of the earth and such panic ensued that the police had to order the publication of the paper to reassure the public mind. But even then it was popularly believed that the paper had been deliberately toned down and comet panics continued for a quarter of a century.

The Printing Press.

The most useful all round invention to humanity is the printing press. Generations ago some philosopher said, "In the world there is nothing great but man, and in man there is nothing great but mind." That is to say, while there are many great things, the greatest is mind. It is by and through his intellect that man has risen to the mastery of the planet, and whatever sharpens the intellect at the same time advances the world's civilization. This the printing press has done as nothing else has done, and therefore to the printing press belongs the honor of being the most useful all round invention known to man.—New York American.

Origin of "Hurrah!"

The history of many a race may be read in its battlecry. The "Banzai!" of the Japanese, the "Faghaghballah!" of the Irish and our own "Hurrah!" have found their origin far back in history.

Although many authorities have declared that the word "hurrah" is a development of the Jewish "hosannah," the consensus of opinion now is that it is a corruption of the ancient battlecry of the wild Norsemen, "Tur aie!" meaning "Thor aid us!" Formerly the word was spelled "huzza" and pronounced "hurray." In one form or another it is used by almost every nation.—Pittsburg Post.

Proverbs For All Occasions.

"I lost heavily at the races yesterday."

"A fool and his money are soon parted," replied the sardonic parson.

"Ah, but I won today."

"A fool for luck."—Washington Star.

BIRMINGHAM STRIKE.

Large Crowds on the Streets But No Disorder So Far.

Birmingham, Ala., June 5.—Officials of the Trades Council claim that between 3,000 and 4,000 union laborers ceased work in response to the call for a general sympathetic strike Monday, and that more will follow.

Conservative union men, however, put the numeber of idle at less than one thousand. The carpenters, plumbers, brewery workers and white barbers appear to have been the only organizations which responded as asked, although there are numerous cases of workmen who have quit as individuals.

There is little to indicate that a strike is on in Birmingham, except the crowds on the streets are a little larger than usual. No disorder has been reported, with the exception of a few minor incidents, such as the coaping of car tracks in certain sections and the mischievous placing of a few torpedoes on the rails.

Extra deputies were sworn in Monday and the officials appear to have the situation well in hand in case there should be trouble.

Labor agents are already here, offering to fill the places of the striking workmen.

$3,000 IN PEWTER POT.

Prong of Poor Man's Plow Unearths a Fortune in Tennessee.

Milan, Tenn., June 5.—Money buried since the civil war has been unearthed by the prong of a poor man's plow, and Bob Philips, who for years has led the life of a simple planter ,now finds himself with more gold than he ever dreamed of, as the result of stopping to inspect the contents of an old pewter pot turned up with the sod he was plowing.

Ten thousand dollars in confederate scrip securely wrapped around gold coin amounting to nearly $3,000 was the small fortune found by Phillips in his field, and the discovery has led to more searching for hidden treasure thought to have been buried by people during the war.

Most Unusual Occurrence.

Bucyrus, O., June 5.—A most unusual occurrence took place at the funeral of 18-year-old Dean Torrence in this city. Torrence died of typhoid fever, all the members of the family being confined to their beds with the same affliction. The funeral was held from the home of a neighbor, none of the members of the family being able to attend. After the services the body was taken to the afflicted home and carried from one bed to the other so that the different members of the family might see the dead body for the last time.

Black Desperado Killed.

Charleston, S. C., June 5.—A dispatch from Trenton says George Hudson, a notorious negro, was killed near there Sunday night by a posse of white and negro men, who had searched for him since Sunday morning. Hudson entered the house of Will Mickins Saturday night and struck down Mickins and his wife, leaving them unconscious on the floor. The woman recovered sufficiently to give the alarm a few hours later, and a search was begun. Hudson was shot while resisting his pursuers in a swamp near Trenton.

Gas Asphyxiates Two Persons.

St. Louis, Mo., June 5.—The hand of death sought by Mrs. Mary L. Burns as a relief from her constant fear of going insane reached not only her when she turned on the gas in her room, but her husband, William Burns, whose body was also found in the house. He is supposed to have been overcome when he came home intoxicated several hours later. A letter signed by the woman telling of the cause of her act was found, but the police believe that the husband's death was accidental.

Convention Circulation Managers.

Milwaukee, Wis., June 5.—Circulation managers of newspapers from all parts of North America opened a three days' convention in Milwaukee Tuesday, there being about seventy-five delegates in attendance. During the sessions of the convention many papers will be read on various topics pertaining to the methods of newspaper circulation.

Appointed Archaeologist.

University of California, June 5.—Dr. George A. Reisener, formerly in charge of the university's exploration work in Egypt, has been appointed archaeologist in charge of excavations for the Egyptian government in Nubia. The archaeological work about to be undertaken is of great importance.

Verdict for Dr. Pierce

AGAINST THE

Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel seven leagues while truth is getting its boots on," and no doubt hundreds of thousands of good people read the unwarranted and malicious attack upon Dr. R. V. Pierce and his "Favorite Prescription" published in the May (1904) number of the Ladies' Home Journal, with its great black display headings, who never saw the humble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the slanderous and libelous article that Dr. Pierce's Favorite Prescription, for the cure of woman's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for $200,000.00 damages.

Dr. Pierce alleged that Mr. Bok, the editor, maliciously published the article containing such false and defamatory matter with the intent of injuring his business; furthermore, that no alcohol, or other injurious, or habit-forming, drugs are, or ever were, contained in his "Favorite Prescription"; that said medicine is made from native medicinal roots and contains no harmful ingredients whatever, and that Mr. Bok's malicious statements were wholly and absolutely false.

In the retraction printed by said Journal they were forced to acknowledge that they had obtained analyses of "Favorite Prescription," from eminent chemists, all of whom certified that it did not contain alcohol or any of the alleged harmful drugs!

These facts were also proven in the trial of the action in the Supreme Court. But the business of Dr. Pierce was greatly injured by the publication of the libelous article with its great display headings, while hundreds of thousands who read the wickedly defamatory article never saw the humble groveling retraction, set in small type and made as inconspicuous as possible. The matter was, however brought before a jury in the Supreme Court of New York State which promptly rendered a verdict in the Doctor's favor. Thus his traducers came to grief and their base slanders were refuted.

Wreck on Illinois Central.

Nashville, Tenn., June 5.—Early Monday night near Gravelotte, Tenn., a station on the Illinois Central railroad, 20 miles northwest of here, the tender of the Chicago Limited passenger train, No. 26, climbed the rail and wrecked the train. Engineer Bent was slightly injured about the shoulders and breast, and the mail car completely wrecked. The baggage car was ditched, and the combination smoker and day coach detrucked at one end. No other damage was done, the Chicago sleeper and the private car of Judge J. M. Dickinson, general counsel of the Illinois Central road, on which he was a passenger, holding the track. The escape of the mail clerks and the baggagemen is regarded as little less than miraculous.

There Are Few

People who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. V. C. Simpkins, Alba, Texas, writes: "I have used Herbine for Chills and Fever and find it the best medicine I ever used. I would not be without it. It is as good for children as it is for grown-up people, and I recommend it. It is fine for La Grippe." Sold by W. M. Johnson.

Milk Poisoned 25 People.

Gomez Palacio, Mexico, June 5.—Adulterated milk poisoned twenty-seven people here, most of whose lives were saved only through the heroic measures resorted to by medical men. Three gendarmes were the first to feel the effects of the poison. Orders were at once sent out for medical men to attend the sufferers. This order probably saved a score of lives

Washington, June 5.—The appointment is announced of Jennie Scott Lester to succeed M. V. Willingham, deceased, as postmaster at Lexington, Ga. Also Marvin P. Phillips is appointed postmaster at Shearwood, Bulloch county, to succeed J. N. Shearouse, resigned.

Baseball Players and Foot Racers.

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes, Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and $1.00. Sold by W. M. Johnson.

THE POCKET SAVINGS BANK EPIDEMIC RAGES FIERCELY ....IN GAINESVILLE....

Beneficent epidemics are scarce, but such a one has struck Gainesville, and people of every station and occupation have the fever.

It is most interesting and instructive to study the constantly changing line of applicants for Pocket Banks as it files through The Sun's business office. There is the mother, bringing her daughter with her and securing a bank for the girl, another for herself, and inquiring anxiously whether she may have another for the boy who is at work. She receives it promptly.

Boys come—some are steady, serious-faced chaps who have begun to think on their own account, and who ask questions about the operation of the scheme which show the results of rubbing up against the world.

Then the High School girls and boys, gay and active, while the workman and business man "slip in" during the noon hour to get a bank for the boy or girl at home, after asking one or two leading questions to make sure there is no joke about the 25 cents.

.....THE PLAN IN OUTLINE.....

A HANDSOME NICKEL POCKET SAVINGS BANK and an order on

PHIFER BROS., BANKERS

Good for an additional 25 cents when a deposit of one dollar or more in cash is made, will be given to everyone who avail themselves of this opportunity. Make an investigation and you will never regret it.

HAYWOOD TRIAL HAS BEGUN IN EARNEST

Most Important Case Ever Tried In This Country.

CASE OF THE STATE OUTLINED

As the Trial Proceeds It Is Expected that Some Very Startling Developments Will Be Made—Union Labor Figures Prominently.

Boise, Idaho, June 5.—The trial of William D. Haywood, secretary and treasurer of the Western Federation of Miners, charged with the murder of Frank Steunenberg, former governor of the state of Idaho, commenced in earnest Tuesday morning when, at 9:30 o'clock James H. Hawley, the leading counsel for the prosecution, made his opening address to the jury on Monday to try what is probably the most important case brought into a court in this country.

Up to the present the charge against Haywood has been one of murder, in that he conspired with the man Orchard, who, by his own confession, it is alleged, committed the crime. But, with this first address to the jury the scope of the case was revealed, at least in part. The charge is that Haywood as one of the high officers of a powerful labor organization, having been given authorty by members to use his office and the funds of the Western Federation of Miners to promote its interests purely as a labor organization, so used his office as to become one of the secret leaders in the gigantic plot to revolutionize society and by murder and terrorizement, bring about conditions in this country that threatened the upheaval of all existing forms of government. Haywood will be tried for the murder of Steunenberg.

The state of Idaho has yet to reckon with the actual murderer—he who laid the bomb at the gate of the residence of the governor, who had retired from politics and was pursuing his way as a sheep farmer, but who, when the chief executive of his state in spite of his allegiance to union labor, throughout a hard working life, had by word and deed shown that he stood first and last for the law and its observance within the borders of Idaho.

It was the murder of Steunenberg and the assassin, Orchard, that laid bare the plots and counter-plots that led to the arrest of W. D. Haywood, together with Moyer, president of the Western Federation, and Pettibone, one of the 1,500 members.

The case has been discussed everywhere in this country for more than a year. But the side of the prosecution has never been revealed, and even now it is said that much will be left to the evidence, and that from its commencement the case will be full of surprises. Counsel for the defense claim that the development of the case will show plots of much larger dimensions than those hinted at by the prosecution. They assert in behalf of their clients that the "capitalistic class" hopes by the arrest of these heads of a powerful labor union to arouse sentiment against labor unions and by the conviction of Haywood crush out the cause of union labor. They charge at the outset and without revealing their defense, that the whole confession of Orchard who they admit is the murderer and the case outlined by the state is a fabrication, built up by the aid of the detectives; that their clients are innocent of wrong-doing or any complicity in the murder or series of murders charged against Haywood, Moyer and Pettibone.

The case of the state, it is charged, will show that no less than 26 murders, each one of them as dastardly as that of Governor Steunenberg, were conceived by what is known as the "Inner Circle," of the Western Federation of Miners. This "inner circle," it will be claimed, acted independently and without knowled 4 dependently and without the knowledge of the members. At no stage of the proceedings will an effort be made to show that more than a score of men had any knowledge of what was going on. The case of the state, it is believed, will show that the president of the Western Federation and his secretary-terasurer were ambitious in their plans and that it was hoped to amalgamate this powerful labor organization with others throughout the country so that it might become a powerful factor and dominating influence through the numerical strength and financial contributions of the hundreds of thousands of workingmen who contributed support to union labor.

PRINCE EBERWEIN BANKRUPT,

But Takes Life Merrily with Actress Wife, Ignoring Bailiffs.

The Hague, June 5.—Prince Eberwein, of Bentheim-Streinfuert, who some time ago forfeited his rights of inheritance and his positon in the German army by marryng the daughter of a burgomaster, is now bankrupt. After the wedding he hired a castle at Oudwassenaar, near the Hague, perhaps hoping for recognition by his aunt, the queen dowager of the Netherland, but neither she nor Queen Wilhelmina nor the aristocracy received him. His failure to pay rent for the castle has led to its seizure by bailiffs, whose presence, however, did not disconcert the prince and princess. They merrily played tennis, ignoring the officers who watched the game.

The pair have now gone to Germany, leaving the bailiff in possession.

Great Banking Merger.

New York, June 5.—Former Secretary of the Treasury Leslie M. Shaw, may head a $50,000,000 banking merger. Reports are current, says the Times, that the newly organized Carnegie Trust company, of which Mr. Shaw is the head, will be the nucleus of a combination of three trust companies whose total resources aggregate the figures given. Officers of the company declined to discuss the proposition at present, but it is stated that tentative negotiations have progressed to a point where the question is receiving serious consideration from the three concerns involved.

Boy Kills His Father.

Chicago, Ills., June 5.—Awakened from sound sleep by the screams of his sick mother who was being beaten by her drunken husband, William Laycock, aged 16, the son of Chas. Laycock, of Daggett, seized a 22 caliber rifle and sent a bullet crashing through his father's brain. The man died instantly. The father was attempting to stab his eldest son, who protected his mother. The father had dragged his wife from bed by the hair. The boy was arrested, but probably will not be prosecuted.

New York, June 5.—Announcement has been received by cable from London that Granville Barker, an English playwright, has agreed to become managing director of the new theater now under construction in this city. Judge Shed Tears.

St. Louis, Mo., June 5.—On a plea of guilty Charles F. Grotefend, defaulting teller of the Washington National Bank of St. Louis, was on Monday sentenced to five years' imprisonment by Judge Trieber, in the United States district court. After embezzling $3,387 Grotefend fled to Sweden, where he was apprehended, extradited and returned to St. Louis. Judge Trieber wept as he pronounced the sentence, the lightest permitted by the statutes.

Pier Fired by Thieves.

Fort Monroe, Va., June 5.—Fire Tuesday, believed to have been started by thieves to conceal a robbery, completely destroyed the freight and passenger house and general offices on the government pier here. The loss will run well up into the thousands. When the safe of the United Express company was unearthed from the ruins, it was found with the door open and empty.

MELONS AND CUKES ARE MOVING LIVELY

Tampa and Jacksonville Will Enjoy a Splendid Season.

CUCUMBER CROP IS LARGE

An Average of Six Carloads a Day is Moving from Tampa and Jacksonville Territory Alone—Fine Prospects for Cantaloupe Yield.

The Tampa and Jacksonville railroad, more familiarly known as the Gainesville and Gulf, which traverses one of the most fertile sections of the State, will as usual this season transport a large quantity of produce, principally truck and melons, and already the movement over this road is heavy. This is especially true of cucumbers, the movement at present of cucumbers alone being on an average of six cars per day.

In speaking of the melon prospects along this line, one of the officials of the railroad a day or two ago stated that the prospects were never better, notwithstanding the fact that the long and continued drought had threatened to cut the yield considerably short. The rains came at the proper time, however, when the vines took on new life.

It is estimated that the cantaloupe crop south of Gainesville tributary to the Tampa and Jacksonville will amount to one hundred and fifty cars. The fruit as a rule is in fine condition, and the growers expect to realize handsomely.

MR. GAY MAKING A BIG SUCCESS

Manager of Colson Farm Secured Large Prices for Products.

HANDSOME OFFER REFUSED

A Cash Proposition of $4,000 for Crop of Ninety Acres of Cantaloupes on the Vines Refused, Because the Grower Expects Crop to Bring More.

W. F. Gay, manager of the extensive Colson farm at Arredondo, has demonstrated that he knew a few things practical in regard to farming, as he has made an excellent success of the farm, which is one of the best in the county.

From a small tract of one and one-half acres, Mr. Gay has already shipped 900 crates of cucumbers which have brought in the markets on an average of more than $1 per crate, and before the season closes he expects to ship about 1,400 crates. This is a pretty fair profit on the acre and a half of land, and friends of Mr. Gay are congratulating him upon his success with the cucumber crop.

Mr. Gay has ninety acres of cantaloupes, from which he expects to realize handsomely. He has refused a cash offer of $4,000 for the crop on the vines, and calculates on getting a great deal more, as the fruit is fine and even, of excellent quality, and is destined to bring fine prices in the Northern markets.

Mr. Gay is not only a practical planter, but a man of fine practical judgment, and this combination is proving very advantageous to him. He calculates on making a handsome thing financially from the farm this year, and while others may fall short on their expectations, he realizes that he will secure a fine success, because he has conducted his farm on a clear and practical basis.

MOTHERHOOD

The first requisite of a good mother is good health, and the experience of maternity should not be approached without careful physical preparation, as a woman who is in good physical condition transmits to her children the blessings of a good constitution.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, more successfully than by any other medicine because it gives tone and strength to the entire feminine organism, curing displacements, ulceration and inflammation, and the result is less suffering and more children healthy at birth. For more than thirty years

Lydia E. Pinkham's Vegetable Compound

has been the standby of American mothers in preparing for childbirth.

Note what Mrs. James Chester, of 427 W. 35th St., New York says in this letter:—Dear Mrs. Pinkham:—"I wish every expectant mother knew about Lydia E. Pinkham's Vegetable Compound. A neighbor who had learned of its great value at this trying period of a woman's life urged me to try it and I did so, and I cannot say enough in regard to the good it did me. I recovered quickly and am in the best of health now."

Lydia E. Pinkham's Vegetable Compound is certainly a successful remedy for the peculiar weaknesses and ailments of women.

It has cured almost every form of Female Complaints, Dragging Sensations, Weak Back, Falling and Displacements, Inflammation, Ulcerations and Organic Diseases of Women and is invaluable in preparing for Childbirth and during the Change of Life.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

SCALY SORES AS BIG AS PENNIES

Covered Whole Head and Neck After an Attack of Measles—Hair All Came Out—Doctor's Treatment Had No Effect—Suffered 6 Months

CURED IN 3 WEEKS BY CUTICURA COSTING $1.50

"After having the measles my whole head and neck were covered with scaly sores about as large as a penny. They were just as thick as they could be. My hair all came out. I let the trouble run along, taking the doctor's blood remedies and rubbing on salve, but it did not seem to get any better. It stayed that way for about six months; then I got a set of the Cuticura Remedies, and in about a week I noticed a big difference, and in three weeks it was well entirely and I have not had the trouble any more, and as this was seven years ago, I consider myself cured. I used one bottle of Cuticura Resolvent, one box of Cuticura Ointment, and two cakes of Cuticura Soap. I think it a splendid medicine, and I recommend it whenever I can. FORMER FLORIDIAN HAS A THIRD WIFE

Former Gainesville Man Pays One Wife a Million Alimony

HE TRIES MARRIAGE AGAIN

Elliott Formerly Resided in Gainesville Where He Was Well Known Several Years Ago—Moved to Jacksonville, Later Going to New York.

Following closely upon a decree of the Westchester (N. Y.) County Court, which gave his second wife a divorce and $1,000,000 alimony, John Love Elliott, a mining promoter, has again wed, and is now on his way to Europe with his third bride.

The bride is said to have been a Miss Moore of West Sixty-fifth street, New York, daughter of Mrs. G. F. Moore. The ceremony by which she was united to the mining man was so quickly and secretly held that it amounted practically to an elopement.

The former Mrs. Elliott, now traveling with her daughter, evidently was unaware that her ex-husband had planned another marriage even while his lawyers were paying over the enormous penalty she won in her suit. But the marriage was no more secret than her own divorce.

Mr. Elliott is president of the Consolidated Arizona Smelting Company and a member of the Metropolitan, the New York Athletic, the Ardsley, Lawyers', City and the City Midday Clubs.—New York Mail.

Former Gainesville Man.

John Love Elliott was for several years a resident of Gainesville, and is well known by many of the older element here. Leaving this city he went to Jacksonville, later proceeding to New York, where he has enjoyed fine success in mining ventures. His first wife, now deceased, was a daughter of the late David Wilson of Jacksonville. She died leaving two daughters, who are now with their father. Their grandmother still resides in Jacksonville.

Mr. Elliott now has his third wife.

ON SERIOUS CHARGE AGENT IS ARRESTED

John W. Jolly, Agent Atlantic Coast Line, Is In Trouble.

HIS ARREST CAUSED SURPRISE

Arrest Was Made on Two Warrants Sworn Out by Representative of the American Surety Company, Charging Embezzlement and Forgery.

Information comes from Leesburg to the effect that John W. Jolly, agent for the Atlantic Coast Line at that point, was arrested Wednesday on two warrants sworn out by a representative of the American Surety Company of New York, one of which is the alleged embezzlement of $2,148, while the other warrant charges Jolly with having forged the names of certain messages of the Southern Express Company to eight express receipts, said to have represented that many "remittances," aggregating $1,317, to the East Florida Savings and Trust Company in Palatka for deposit, which money was not received by the bank.

The alleged shortage was discovered by G. W. Watson, a traveling auditor, who says that the accused made a full confession to him after being confronted with the express receipts alleged to have been forged for the purpose of deceiving the auditor, and thereby obtained credit for $1,317 supposed to have been in transit.

The defendant will have a preliminary hearing tomorrow before Judge J. B. Milan in Tavares, the county seat of Lake county.

Mr. Jolly has hitherto borne an excellent reputation, and his arrest was a great shock to his friends here and elsewhere.

In Mayor's Court.

Douglass Jackson, colored, was arraigned in the mayor's court Tuesday upon a charge of fighting, the complaint having been entered by A. Chresostomidhes, who testified that without provocation Jackson entered his store and struck him.

Jackson found this a rather expensive manner of getting satisfaction, if he had a grievance, as the mayor fined him $10 and cost.

Our Lake City friends can no longer claim that the University of Florida is not located in the city of Gainesville.

The editor of The Sun can sit at his desk and count the names of over two hundred persons in Alachua county who are entitled to draw pensions under the new law.

The anti-tip bill which passed the House during the late session of the Legislature would have found many friends in the Senate had it been reached on the calendar.

The new pension law will be published in The Sun as soon as a certified copy can be obtained from the Secretary of State. So far a correct copy has not appeared in print.

Now that Lawyer Abe Hummel has been consigned to jail for perjury, the question will be asked as to how many of his undiscovered victims in New York are paying alimony under false pretense.

Now that the Legislature of 1907 is a thing of the past the people can rest in peace until time to pay their taxes under the new law. Not until then will they realize the heavy burdens placed upon them.

Referring to the gubernatorial timber, what's the matter with Joe Humphries of Manatee county? He is possessed of the ability and sagacity that the chief executive should possess, and would make Florida a model Governor.

Senator Crill of Putnam county is to be congratulated upon having his pure food and geological survey bills enacted into law He has labored earnestly for these measures during the past ten years and The Sun rejoices to know that success has at last crowned his efforts.

The name, purpose and location of clubs not belonging to the Federation is asked for by the State secretary of the Florida Federation, Mrs. Kirk Munroe, for statistical purposes. She respectfully asks the secretaries of such clubs to send the information required to her. Address Cocoanut Grove, Dade county, Florida. P. O. Box 178.

Ere another year has elapsed the University of Florida will be "a thing of beauty and a joy forever." The funds are now available for the erection of the necessary additional buildings and beautifying of the grounds and the Board of Control will push the work to completion as rapidly as the securing of labor and material will permit.

The candidates for Governor next year will in all probability be R. Hudson Burr, chairman of the railroad commission; Albert Gilchrist, former speaker of the House of Representatives, and T. A. Jennings, a native of Hamilton county, but now residing in Pensacola. The former two gentlemen are avowed candidates, and the latter will no doubt make formal announcement of his candidacy in the near future. Hon. Cromwell Gibbons of Jacksonville may also be a candidate.

THE NEW DRAINAGE LAW.

The Fort Myers Press, referring to the new drainage law, says it means that the work of draining the Everglades under the present plans of Governor Broward will be continued, although the revenue to be derived from the new drainage district will not be near so large as under the act passed two years ago, and which the United States Court at Jacksonville ruled out.

Many of the objectionable features of the old law have been left out, the maximum tax to be levied is five cents per acre, instead of ten, as under the former law, and the boundaries of the new drainage district are considerably contracted.

Under the old law, more than one-half the territory of Lee county was included in the drainage district, the west boundary of the district being the range line between Ranges 27 and 28, coming close to Alva, and embracing all the lands on the river east of Alva. The new district cuts off four tiers of townships in this, DeSoto and Monroe counties, placing the western boundary of the district on the range line between Ranges 31 and 32, which puts the west line just about where the Hicpochee lock and dyke is to be located, and striking Cape Sable on the south. All of the Everglades are embraced in the new district, the north line taking in a little more than one township north of Lake Okeechobee, taking in a large part of the new Saint Lucie county, and all of Dade county with the exception of a strip a few miles in width, down to Miami, where the line strikes the coast and follows the coast line around to Cape Sable.

Only 33 townships in Lee county are included in the new drainage district, whereas under the old law, 77 townships in this county were embraced in the district.

The report of the committee appointed by the Legislature to investigate the drainage work of the Commissioners was so favorable that it no doubt had much influence in securing votes for the present bill.

Under the new drainage law nearly all of the small tax-payers are left out of the district, there being only those on Fish Eating Creek, and some along the East Coast. The bulk of the lands in the district are owned by the Southern States Land and Timber Company.

HON. J. M. BARCO.

For some months past it has been rumored that Hon. J. M. Barco of Marion county was a probable candidate for State comptroller. He has been prominently mentioned by the State press as a good man for the position, and The Democrat today learns from a good and reliable source that he has decided to make the race, and that his announcement will be made at the proper time. It goes without saying that he will make an active and aggressive campaign.

Mr. Barco is a native Floridian, and one of the best known men in the State, and his many friends are numbered by the thousands who will be only too glad to give him their support. He has been prominent in business and political circles for a number of years, and is regarded by all as a true, honest Christian gentleman, who would do honor to any office within the gift of the democracy of this State.

If nominated and elected to the office of State comptroller, the affairs of that office will be properly and honestly conducted without fear or favor. Mr. Barco is well qualified to fill the position and would make a model official, and we predict for him the largest vote ever cast for a candidate for any office who had an apponent.—Live Oak Democrat.

Mr. Barco was for several years a resident of Gainesville, being register of the United States land office, and should he become a candidate for comptroller his old friends would lineup for him in solid phalanx.

A new census of Gainesville should be taken at once. A correct enumeration of the inhabitants within the present boundary lines would show it to be probably first, in point of population, of the inland cities of the State, and we should lose no time in demonstrating such to the outside world.

Members of the county school board and county commissioners now receive four dollars per day for their services, the law in this respect having been amended at the last session of the Legislature.

ARE YOU CLEANING UP?

The following from The Arcadia News of a recent date is applicable to Gainesville, as it is to other towns of the State:

"The DeSoto County News in a former issue asked this pertinent question, which is applicable to the season, and which we dedicate to the people of Brevard county.

"'Are you cleaning up your premises and trying to keep clean as the hot weather comes? Now, that it has been proven beyond a shadow of a doubt that flies from the stable or closets often bring typhoid germs to food, why not try to shut them out? Screens on the doors and windows and lime outside and a general clean-up are all cheaper than sickness.

"'Then are you sure your drinking water is just the thing? So much sickness has been treated to the water. If from shallow wells why not boil it and keep it on ice? Then even deep water sometimes has too much lime for many weak systems. A stone filter will take much of the lime out. Keep the sewer pipes of the human system open for refuse matter.

"'Cost trouble and money, you say. Yes, but cheaper than sickness. Prevention is better and cheaper than cure.'"

The action of the Secretary of the Interior in dismissing thirteen old and faithful clerks from the Land Office was rather hard-hearted on the face of it. The action will be followed by similar dismissals in the case of about 100 others. This is pretty severe on the old clerks who are let out through no fault of their own except old age. But it may have the effect of hastening the passage of the Civil Service Retirement Bill which, with good reason, is eagerly looked forward to not only by the Government employes of Washington, but of all other parts of the country. In the case of the Land Office clerks, the old people had been retained on the rolls largely out of charity, copying the Land Office records in pen and ink simply because they did not know how to use typewriters. The work of the office was falling behind and Mr. Garfield, the new Secretary of the Interior, being a strong, energetic young man, took the step that none of his predecessors had ever had the heart to take and dropped the old clerks from the rolls. Many of them will become objects of charity, some of them of public charity. They will serve as bitter examples of the sin of growing old in the Government service. But perhaps their plight may hasten the day when clerks will learn to be more thrifty and lay up something for old age.

The past year has been by far the most profitable in the history of the Hastings potato section, ninety thousand barrels having been harvested and disposed of at the best prices in many years. The land upon which many small fortunes have been made during the past few years in that section was formerly considered worthless, and is another evidence of the fact that no living being knows what is yet in store for the people of Florida. The geological survey provided for by the last Legislature may yet be the means of the people forgiving the sins of omission and commission of that body, for there is no telling what such a survey will show to be lying in the bowels of the earth of this State.

The passage of the apportionment bill introduced in the last session of the Legislature giving each county a Senator, and providing that no county should have more than three Representatives, no matter what population the county has, would have been nothing more nor less than an outrage upon the larger counties of the State. It required constant watchfulness on the part of the Senators from the larger counties to prevent the passage of this bill through the Senate after it had been passed by the House.

The St. Lucie County Tribune says the pineapple season is on in earnest and the daily shipments have now exceeded twenty cars. Some foreign shipments have been made, and the indications are that exports will increase over last year, although a good price is offered for all the fruit in the home markets. The fruit is of a much superior quality than was anticipated during the long drought, and while the percentage of small sizes will be larger than last year, the crop as a whole will be an average one.

AVAILABLE CANDIDATES.

A canvass of the newspapers, both Democratic and Republican, during the past month, gives evidence of a very singular and sudden alteration in sentiment concerning Democratic prospects in 1908. The apathy that always accompanies an inevitable candidacy seemed, up to two months ago, to have settled on the party; but now, since the appearance of ten available candidates, the whole complexion of the situation is changed, and nowhere is this more evident than in the editorial pages of the newspapers referred to.

Among the names suggested as candidates are Overman, White, Johnson, Daniel, Swanson, Rayner, Culberson, Carmack, Beckham, Smith and Francis. It is a singular fact that in all this long list, there is not, except Johnson, the name of a single Northern man. It seems to be generally conceded that the South is to name the next candidate of the party, and it is probably the most significant sign of the times that this inevitable event has excited no adverse criticism, either in the North or West.

The announcement has been made that the medical college, the first college of the University of Manila, is about to be opened. The Philippine Government has appropriated $62,500 for the first year's support of the new institution and the plan is to add other colleges to it and make the institution the premier university of the orient. There will be chairs of the usual sort in the medical college, but special attention will be paid to tropical diseases. This will open up an almost untouched field of research for this country, and with the extensive tropical possessions the United States has acquired, should prove a very valuable addition to our scientific knowledge This country has already given to the world the mosquito explanation of yellow fever, the most important contribution to medical knowledge since the discovery of antiseptics. And there is now an excellent chance for further notable achievements in the same field.

The unanimity with which the bill appropriating money for the proper equipment and maintenance of the Florida University, State Woman's College, and Deaf, Dumb and Blind Institute, passed the recent Legislature, shows that the people of Florida are alive to the importance of the higher education of the youth of the State. Senator Buckman of Duval county is the author of the present higher education law, which was enacted in 1905, and the ability with which he opposed every attempt to cripple the State schools during the recent session of the Legislature shows that his constituents made no mistake in promoting him from the House to the Senate. Harry Buckman is today one of the ablest men in the State of Florida.

The people of St. Petersburg, as well as those of the entire peninsular of West Hillsboro county, are very sore over the failure of the Legislature to create a new county of that section. The bill creating the new county, to be known as Pinellas, passed the House by a good majority, but was never reached on the Senate calendar, and Senator Crane never endeavored to take the bill up out of its order. The Pinellas people will make a strong effort to have this new county created two years hence.

Chairman Taggart, who was in New York last week, was interviewed on the Presidential outlook. "Geographical lines have been eliminated from the map," he said, answering a question as to where the next candidate was to come from. Commenting on this statement The Standard-Union of Brooklyn said: "Taggart's declaration that sectional lines in 1908 is calculated to lend strength to the movement now on foot in the South to put forward a candidate from that section—the first one since the war."

"Pot metal" will be a prominent feature of the next gubernatorial campaign. Guy Metcalf, who managed this department of Mr. Burr's bureau four years ago, when he first ran for railroad commissioner, will no doubt look after his interests in this respect in his race for Governor next year. The Florida newspapers are largely indebted to Mr. Metcalf for their new class of advertising.

FENNELLS WERE PLEASED.

Visited Richmond, the Jamestown Exposition and National Capital.

John Fennell of Melrose, and son, J. Morgan Fennell of this city, have returned from a visit to the Confederate reunion at Richmond, and while absent extended their visit to Washington and the Jamestown exposition.

Morgan Fennell states that their visit was a most enjoyable one. Richmond was crowded with old soldiers and visitors, this reunion being one of the most largely attended ever held.

In speaking of the Jamestown Exposition, Mr. Fennell states that, notwithstanding that many of the buildings have not yet been completed, it was a great show, and is being attended by thousands from every section of the United States, and all who attend appear to express themselves as being satisfied.

A brief stay was made in Washington, which Mr. Fennell describes as being one of the handsomest and most model cities he has ever visited.

A HAPPY MARRIAGE.

Lonnie Hurst and Miss Almedia Harrod United in Matrimony.

A quiet but happy marriage was solemnized at the home of Mr. and Mrs. A. F. Harrod Wednesday morning, the contracting parties being Almedia Harrod, their daughter, and Lonnie Hurst of Ocala. Elder James Lee of the Advent Christian church officiating. There were only a few intimate friends of the family present.

The groom has a number of friends in this city, having at one time resided here. He is now employed by the Theis-Zachary Furniture Company of Ocala. The bride is a well-known and popular young lady, having many friends.

Mr. and Mrs. Hurst left on the 1:30 train for their future home in Ocala, carrying with them the best wishes of a host of friends.

ACCIDENT TO IRA J. CARTER.

Sustained a Broken Limb as Result of a Runaway Saturday Night.

As a result of a runaway, in which he was thrown violently from his buggy, Ira J. Carter, a well-known young man who owns and conducts a farm in the Bennington section, sustained a broken leg and was otherwise injured.

The runaway occurred Saturday night, when Mr. Carter, who came to Gainesville on business, was returning to his home. He was brought to this city, and is now with the family of W. P. Carter, where he is receiving every attention.

Friends of Mr. Carter regret very much his misfortune, but trust he will soon be enabled to resume his duties.

THE FISHERMEN RETURN.

Jolly Quintette of Anglers Had Big Time at Cedar Key.

A jolly quintette of anglers, comprising W. R. McKinstry, Lee Graham, K. H. Graham, E. B. Brown and Captain J. W. Blanding, have returned from a most delightful fishing trip at Horse Key, opposite Cedar Key.

The party secured a boat at Cedar Key and "went where the fish was at," as one of them expressed it. There are all kinds of reports about the success of the trip, but the more conservative of the party give the catch as thirteen sharks, a boat-load of mullet and bottom fish which almost swamped the craft, and a numerous assortment of members of the finny tribe.

NOTICE.

Take notice that I will, on the first Thursday of July, or as soon thereafter as I may be heard, apply to the pardoning board of Florida for a pardon for Steve Timmons, who was convicted of murder in the second degree at the fall term of the Circuit Court for Alachua county. Anyone desiring may then be heard on the merits of the application. Dated this June 3rd, 1907.

MEMORIAL ERECTED TO JEFFERSON DAVIS

Thousands of Confederate Vets Witness Unveiling.

BIG PARADE OF THE VETERANS

The Monument Is the Fruition of Sixteen Years of Patient and Loving Effort on the Part of the People of the South.

Richmond, Va., June 4.—An everlasting memorial of Jefferson Davis, the patriot and statesman, who was the chosen leader of "The Lost Cause" and the first and only president of the Confederate States of America, was unveiled here Monday as the crowning feature of the annual reunion of the Confederate Veterans.

The ceremony was made the occasion for a grand military pageant in which every veteran in gray who was physically able and many a one who was not, participated with an energy and enthusiasm which defied the life-sapping years that have gone since he bore arms for the south. The drawing aside of the veil which draped the figure representing the veterans' beloved leader and the first gun of the presidential salute which immediately followed was a signal for an outburst of cheering which was swollen to thunderous applause by the sons and daughters of the veterans. Tears bedimmed the eyes and coursed down the cheeks of the boys in gray and their emotion-choked voices would have but a feeble effort had it not been for the assistance given by a younger and homage-paying generation.

The event was a fitting close to what is universally recognized as the last "great gathering of the confederate veterans." It was the feature that drew many thousands from all sections of the south who otherwise would not have come.

The unveiling of the monument was the fruition of eighteen years of patient and loving effort and every man who wore the southern uniform had in his heart a desire to be present. A devotion which knows no equal in American history is responsible for its building. It was a work the south had to do without help. There was no united nation to bear the expense. Love and sacrifice were the Masons who piled the stones and spread th emotar that cemented them into an enduring memorial.

Grand Parade.

The grand parade started at 11:30 o'clock. The military feature was similar to the parade on the first day of the reunion when the statue of Major General J. E. B. Stuart was unveiled, but there were far more veterans in gray in the line. They appeared to have been saving their strength for this event and though walking was bad none who could walk at all shirked the duty. Veterans of every section of the south marched in honor of the soldier, statesman and president of the southland.

The grand procession was under control of General Stith Boling, of Petersburg, Va., as chief marshal.

The procession continued out the avenue to the Davis monument, where a dense crowd of people had assembled. So great was this congregation that it was with great difficulty a passage was cleared for the speakers and other distinguished visitors to reach the stand. The ceremonies were opened with prayer by the Rev. J. William Jones, of Richmond, chaplain general, and so glowing were his tributes to General Davis that a chorus of "Amens" were murmured by the multitude.

The first address was by Governor Claude A. Swanson, of Virginia, and he was followed by Mayor Carlton McCarthy, of Richmond, who introduced General Evans as orator of the day.

Mayor Accepts Trust.

At the conclusion of his address the mayor spoke briefly, accepting on behalf of Richmond, the sacred trust imposed upon it by the whole south. Mrs. J. A. Hayes, of Colorado Springs, Colo., daughter of Mr. Davis, then pulled the cord that held the canvass shroud that covered the bronze statue. Her two young sons, the grandsons of the confederate president, caught the two cords to complete the unveiling. The moment was one of never-to-be-forgotten impressiveness. One moment, not more than a second or two of absolute silence, and then burst forth cheering, bands played and the Richmond Howitzers began firing their presidential salute. The ceremonies were not ended at the unveiling, but the multitude could not be kept quiet for the rest. The people forming the immediate circle around the monument sang and sang, and saw garlands placed on the pedestal of the monument.

After the benediction by the chaplain general, floral tributes were offered by the public.

The monument to Jefferson Davis is the crowning statue of Richmond's great monument avenue. It is the combined work of E. V. Valentine and William C. Noland, of Richmond. The memorial is of a semi-circular colonade terminated at each end in a square piece with a large color shaft from the end of the space. The semi-circle is about 50 feet across, with a depth of 30 feet, and stands 67 feet in total height. The monument typifies the vindication of Mr. Davis and the cause of a confederacy, the leading inscription being "Deo Vindico" (God will vindicate).

The bronze figure of Mr. Davis stands on a great block of granite in front of the column and about 12 feet above the roadway.

THIRD DAY OF THE CONVENTION

Birmingham Was Selected by the Vets as Place for Next Meeting.

Richmond, June 4.—Great sheets of cold, wind-swept rain were sweeping down from a frowning sky when the gray-coated "boys" of 1861-65 gathered once more in the horse show building to attend the third session of the United Confederate Veterans, but lachrymose heavens and chilly weather could not drive the sunshine from the hearts of the old soldiers.

The joy of being again with the comrades of over four decades ago overleaped all difficulties and ignored all discomfort, while the stirring southern airs played by the band aroused a host of dormant memories which were sweet in their revivification.

To say that the weather was viciously disagreeable, but half expressed it, yet hundreds, and hundreds of Johnny Rebs were in the hall when the body was called to order. In fact, the attendance was but little smaller than that of the second, when General Stephen D. Lee rapped the body to order and presented the Rev. Dr. McKim, of Washington, who offered prayer.

Dr. J. William Jones submitted the annual report of the Confederate Memorial association, which dealt chiefly with the status of the battle abbey and the benefaction of Charles Broadway Rouss.

The report which called for additional financial aid was adopted midst great enthusiasm.

The report of the history committee was received and ordered to be printed. It was not read to the convention.

A cane cut from th ecenter of Cold Harbor battlefield was presented by J. J. Estes, company D, Eighth Virginia cavalry, to General Stephen D. Lee. The commander accepted the gift in fitting language.

A stirring speech was made during one of the unoccupied intervals of time by General Bennett Young, of Kentucky, who commented on the many monuments which had been erected to the memory of the confederate soldiers in the southland. He said that Kentucky alone had raised forty to confederates, and not one to federals.

Ex-United States Senator James H. Berry, of Arkansas, who lost a leg at Corinth, Miss., was presented to the convenetion. When he hobbled forward to the speaker's stand on his crutch he was greeted by a tremendous wave of applause, and once again the whole convention arose to its feet. Senator Berry delivered an address replete with felicitous references to Virginia.

The grand camp re-elected its general officers as follows:

Commander-in-chief, General Stephen D. Lee.

Lieutenant general, department of the Army of Northern Virginia, General Irvine Walker.

Lieutenant general, department of Tennessee, General Clement A. Evans.

Lieutenant general, Trans-Mississippi department, General W. L. Cabell.

All of the officers were chosen by acclamation.

Birmingham was th ecity chosen for the next (eighteenth) annual reunion of the veterans. Other cities in competition were San Antonio and Nashville. The vote stood about 1,600 to 800 in favor of the Alabama city.

The report of the committee on resolutions was adopted without debate.

General ideas and great conceit are always in a fair way to cause terrible mischief.—Goethe.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the appoval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

Instructed Not To Take Orders.

Spencer, Mass., June 4.—A copy of what appeared to be a general order sent out from headquarters of the United Shoe Making Machinery company, in Boston, has been received by the company's agent in Spencer, instructing him not to take orders for any more machinery until further orders have been received from the company. The signing of the anti-shoe-making bill, by Governor Guild on Saturday, making the measure a law, is supposed to be the reason for the order.

Baseball Players and Foot Racers.

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes, Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Mayor of San Francisco Must Answer Extortion Charge.

San Francisco, June 4—The third week of the trial of Mayor Schmitz on the charge of extortion will begin Monday with eight jurors in the box and with the prosecution limited to but one peremptory challenge and the defense two. Two talesmen were accepted on Friday, but two jurors chosen earlier in the case were disqualified on the same day. Four more jurors are yet to be selected before the testimony can be taken. The accusation on which Schmits will be tried is one of the first five indictments returned against him in connection with the extortion of money from French restaurant keepers under threat of forcing the police commissioners to withhold permits for liquor licenses.

Since the Schmitz trial has begun, 30 other true bills have been found against him by the grand jury.

NEW CRATE FACTORY MAY START HERE

W. R. Stokely of St. Augustine Has An Excellent Patent.

A NEW SECTIONAL CRATE

The Crate is Round, Possessing Many Advantage Over the Square Box. Patantee Desires to Establish Factory Here If Properly Encouraged.

Gainesville may soon have another industry which will prove one of the largest and most important in this section of the State. It is a crate factory, which will manufacture the new improved Stokely cylindrical fruit and egg crate, of which W. R. Stokely of St. Augustine is the patentee.

Mr. Stokely was in Gainesville Monday, having come for the purpose of looking over the situation. Realizing that Gainesville is located in the center of the most fertile trucking and horticultural section of the State, the patentee concluded that this would be the proper place for the establishment of a factory, the location also proving of extra advantages on account of the abundance of hard wood to be found in this section.

The Stokely crate, as its name indicates, is a cylinder crate, which is made of gum wood. It is a sectional crate, very handsome, and by the means of which the fruit or produce may be shown off to excellent advantage. It contains many advantages over the ordinary crate, principal among which is the ventilation.

Mr. Stokely had with him a sample crate in which was neatly packed a section of oranges. He exhibited it to a number of gentlemen, explaining its merits and advantages.

The patentee states that this crate can be manufactured and sold as cheaply as the square crate. He is thinking seriously of establishing a large factory here in the event that he can secure the necessary financial encouragement.

FLAGMAN WAS KILLED.

Young White Man Run Down and Killed by Seaboard Train.

Information has reached this city of the death of a young white man, a flagman on the Seaboard Air Line railroad, who was run over and killed by a train which he was flagging at Campville three or four days ago.

The circumstances of the tragic occurrence are meager, neither could the name of the young man be learned. It is stated, however, that his train was a freight which had taken a siding, and the train backed into him while he was standing in the center of the track with his attention directed elsewhere.

TEACHERS' EXAMINATION.

Fourteen White and Twenty-Three Colored Teachers in Attendance.

The annual examination of applicants for teachers for Alachua county schools began Tuesday, with fourteen white and twenty-three colored applicants in attendance.

Of the white applicants twelve are ladies.

The examination is being conducted under the personal direction of Superintendent of Public Instruction Dr. J. L. Kelley, assisted by Miss Serena Shannon and Hon. R. B. Weeks, chairman of the school board. The examination will continue for four days.

Off to Kanapaha.

A party of young men, on pleasure bent, left the city at an early hour Tuesday morning for Kanapaha sink, where they will remain for the next two or three days. This party will be chaperoned by P. M. Oliver, which is an assurance that everything will pass off agreeably.

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

MARSHAL ARNOW'S REPORT.

Forty-one Arrests During Month. Fines Aggregating $124.

Marshal Arnow is making a most excellent officer, and those friends who stood by and supported him during the municipal campaign are proud of the record he has made so far.

Marshal Arnow is not a big man physically, but he makes up the deficiency in his shrewdness and bravery, with the result that he is making for himself a reputation which is bound to prove of benefit to him later.

The marshal's report for May, which has been turned in to the proper authority, shows forty-one arrests during the month, with an aggregate revenue from fines of $124. Forty-nine head of catte were impounded, making fees aggregating $24.50.

HARMFUL STOMACH DOSING.

The best physicians believe that the less medicine one swallows the better.

Do not try to cure catarrh of the head by dosing the stomach; this is neither common-sense nor scientific. Breathe Hyomei, and its medication will go right to the spot where the catarrhal germs are present and free the system from all catarrhal poisons.

J. W. McCollum has seen so many cures of catarrh made by Hyomei, some of them chronic and complicated cases, that he gives an absolute guarantee of cure or money will be refunded with every outfit he sells. The complete Hyomei outfit costs but $1.00.

Pinkoson-Kirby.

Married, at the home of Mrs. Nanie Harris at 8 o'clock Tuesday evening, Herbert H. Pinkoson and Mrs. Ethel Kirby, Rev. T. J. Nixon officiating.

The contracting parties are well known in this city and section, the groom having been reared here.

The ceremony was a quiet affair, only a few intimate friends of the contracting parties being present.

The Sun, with other friends, extends sincere congratulations, with the wish that the married life of these two young people will be one of happiness and prosperity, which will no doubt be the case.

A Happy Mother

Will see that her baby is properly cared for—to do this a good purgative is necessary. Many babies suffer from worms and their mothers don't know it—if your baby is feverish and doesn't sleep at night, it is troubled with worms. White's Cream Vermifuge will clean out these worms in a mild, pleasant way. Once tried always used. Give it a trial. Price 25 cents. Sold by W. M. Johnson.

FRANCIS MULBERRY REMANDED TO JAIL

Woman Charged With Murder Waived Examination.

WAS BEFORE JUSTICE COLMAN

Mulberry Woman Is Charged With Causing Death of Woman by Administering Drugs in Effect to Bring About Criminal Operation Few Days Ago.

From Tuesday's Daily Sun.

The case of the State of Florida vs. Francis Mulberry, charged with murder in the second degree, the specifications being that the woman caused the death of Queen Clements, colored, twenty years of age, by administering drugs in an endeavor to effect a criminal operation, was called in Justice Colman's court Monday morning.

The little court room was crowded with spectators who were congregated for the purpose of hearing the evidence, but they were disappointed, as the woman, through her attorney, Evans Haile, waived examination, and the bail was fixed at $500.

Being unable to secure the bond, the woman was sent back to prison, where she will remain until her case is disposed of in the circuit court.

The Mulberry woman is a well-known character in this section, and is looked upon by the colored people, especially the "old-timers," with superstition, as they believe her to be a witch, possessed of mysterious unseen power. She is where they will have no fear of her at present, however, and probably will remain in confinement for some time to come.

Prof. Blair Honored.

Prof. A. W. Blair, head of the experimental station of the University of Florida, has returned from Stillwater, where he went to deliver an address before the horticultural society of that place.

Prof. Blair is one of the best posted men in horticulture and agriculture in the South, and his advice is considered of a high standard by those who are seeking knowledge in this direction.

Beware of Ointments for Catarrh that Contains Mercury

As mercury will surely destroy the sense of smelling and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c per bottle.

He Met Death Armed to the Teeth.

Clinton, S. C., June 4.—John McMorris, a negro, was shot and killed in the house of Rhett Crawford Sunday morning. The negro entered the place with a key, probably having seen Crawford's family start out for church. Two men on watch confronted him and he opened fire, but was killed by John Boyd. McMorris had three pistols and a bunch of fourteen keys on his person. Boyd is held by the coroner of Laurens county for investigation.

Found Dying In Vacant Lot.

Birmingham, Ala., June 4.—J. M. Mosely, an employee at the Alabama Great Southern railroad shops, was found in a dying condition in a vacant lot on Morris avenue with his pockets rifled. There were great holes in the front and back of his head as though the skull had been crushed in by some heavy weapon. He cannot possibly recover. His son, S. J. M. Mosely, was killed by highwaymen in Birmingham a short time ago.
